Eye Surgery Stretcher
Stryker’s Eye Surgery Stretcher offers maximum headend clearance, giving surgeons ample leg room to maneuver while performing delicate eye procedures. The reliable work surface and mobile design combine to help with surgical throughput.

- Enhanced head end clearance
  Maximizes the surgeon’s access for either a temporal or a superior approach to surgery.
- Optional contoured or flattened piece
  Comfortably supports patient during procedures.
- Retractable fifth wheel helps improve mobility.
- Metal tooth and groove braking system prevents swivel and roll.
- Option of two- or three-position fold-down siderails.
- Multiple bumper color options allow you to customize the stretcher for identification purposes.

Surgistool Chair
The ideal surgeon’s stool
Surgistool Chair offers customizable seat configurations with fully adjustable backrest and armrests provide optimal support to meet the surgeon’s specific positioning preferences. Superior pedal access and a stable, yet mobile, design helps to facilitate clinical performance.

- Three spindle base
  Provides superior control and pedal access.
- Optional padded armrests allow for versatile positioning and stability.
- Multiple seat configurations offer personalized comfort.

Retractable fifth wheel helps improve mobility.

Metal tooth and groove braking system prevents swivel and roll.

Option of two- or three-position fold-down siderails.

Multiple bumper color options allow you to customize the stretcher for identification purposes.
